

QUICK REFERENCE SHEET

Nature provides a wealth of organic nutrients produced by the sun and soil — photosynthesis, the foundation of life. These components are lacking in many modern diets. The body needs these nutrients, minerals and enzymes to function normally and remain healthy.

Jade GreenZymes offers an abundance of whole-food compounds, produced with PiMag water, “the water of life.” The natural alkalinity of Jade GreenZymes can also assist in helping maintain a healthy acid/alkaline balance.*

- Called nature’s perfect food
- Barley grass juice and the Nikken PiMag Proprietary Blend
- All natural, whole foods
- Grown in Asia, far from fertilizers or chemicals
- Clean, crisp flavor, no artificial sweeteners or preservatives
- Kosher certified

Jade GreenZymes

The Nikken Nutrition Philosophy

Hippocrates, the father of medical science, said, “Let food be your medicine.” Nikken Kenzen Wellness nutrition is based on the principle that natural, whole foods are the ideal source of the nutrients your body was designed to consume. They are “living foods” in the sense that healthy, natural nutrition supports normal physical function, contributes fuel for energy, and helps the body defend itself against illness, aging and environmental challenge.

- A** - Essential Core Nutrition from Nature
- B** - Basic Building Blocks
- C** - Body Balance System
- D** - Targeted for Specific Wellness Concerns

Nikken Jade GreenZymes features and benefits:

- *Young barley grass* At its freshest and most alive with nutrients.
- *Produced with only the highest-quality materials* All natural, no preservatives, fillers or additives.
- *Only the juice is used, no pulp* Juice has the highest concentration of vitamins and minerals.
- *Prepared using a cold process* No heat, which can destroy enzymes.
- *Produced using PiMag™ water* The “water of life.”
- *Nikken PiMag™ proprietary blend* Galactomannan, kombu extract, pearl barley seed extract, enzymes.
- *Detoxifying* For circulatory and colon health.*
- *Supports skin elasticity* To help prevent the appearance of aging.*
- *Natural pH regulation* To influence the body’s acid/alkaline stability.*

QUICK REFERENCE SHEET

The facts

- Barley grass juice has been described as a complete salad in a glass. Jade GreenZymes is more. It's *core nutrition* — a balanced combination of vitamins, minerals, enzymes and other ingredients.
- Of all barley grass products, only Jade GreenZymes is produced using PiMag™ water and the Nikken PiMag Proprietary Blend.
- The ingredients in Jade GreenZymes complement PiMag water and the preparation perfectly integrates these components. The coral calcium found in PiMag water also has natural alkalinity, in harmony with the elements in Jade GreenZymes.
- Jade GreenZymes begins in an isolated, untouched region in southern Japan. The young barley grass is grown near the sea and close to snow-covered mountains. The land is refreshed by pure rainwater.
- This all-natural, healthy organic material is carefully harvested, using traditional methods. The result is the principal ingredient in Jade GreenZymes.
- Enzymes are necessary to a number of body functions. Enzymes oxidize fatty acids. They improve digestion. Enzymes aid in ridding the body of waste, in breaking down substances for easy absorption, and in maintaining healthy bones and tissues. Jade GreenZymes is carefully prepared to retain the natural enzymes.*
- Jade GreenZymes can be consumed by anyone — even young children — at any time.
- Jade GreenZymes is the inspiration of a Japanese medical scientist, Dr. Yoshihide Hagiwara. Dr. Hagiwara has devoted his life's work to finding a natural substance that would promote health — with ingredients that support the body's nutritional needs.
- Taken on a daily basis is like a supercharged serving of green vegetable nutrition.
